

## Letter # 2 THE BAGS

Hi everyone,

As you already know, we shall leave for 2 years on a recumbent bike, which requires a lot of organization in our luggage!!

We have 3 pairs of saddlebags and 1 rack pack (a bag to put on top of a pair of bags) so:  $3 \times 2 + 1 = 7$  bags in total

Kalima carries the blue bags (1 pair + 1 rack pack) and Sylvain the green bags (2 pairs)

Here are all the contents of our bags without audiovisual equipment:

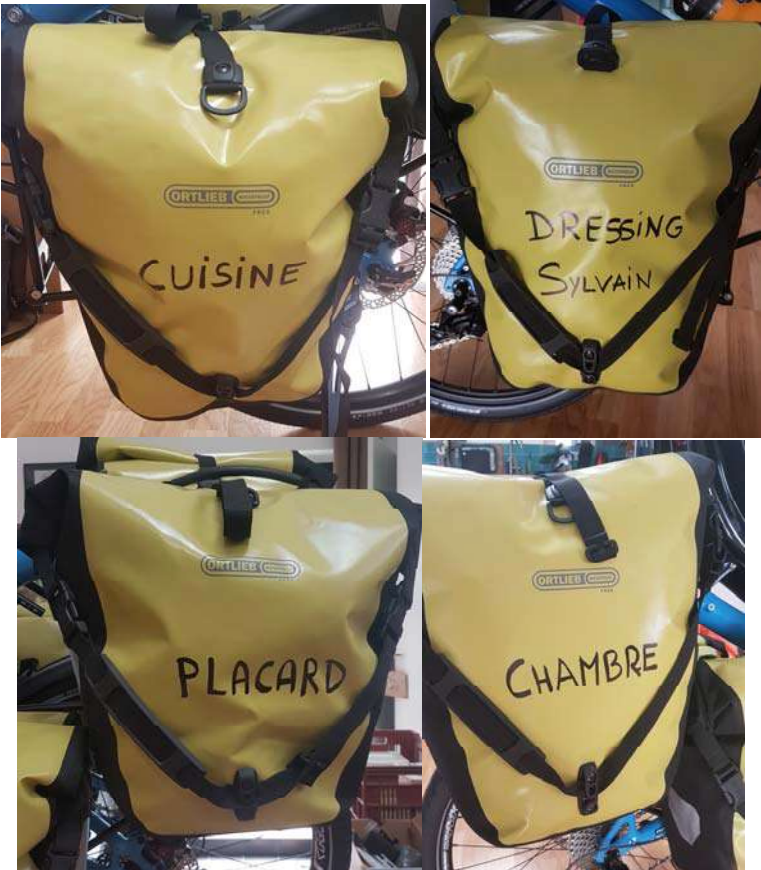

We named our bags to find our belongings easily. A real traveling house!  
We present you our bags:

KALIMA

SYLVAIN

## In your opinion, what goes into which bags?

Clue:

In the "bedroom" there are only sleeping bags (yes it is very bulky), in the "house" we put the rest of the bedroom, apart from the floor mats that are in the "bathroom".

In the "closet" there are a lot of technical clothes...

We also have with us a small backpack with our passports, our money, our administrative documents, a notebook, a pen.

But we are also leaving to make a documentary about sustainable food!

So we have with us audiovisual equipment: 1 camera, microphones, 1 GoPro, 1 drone, 1 computer.

Do you know what a drone is for?
